rafifshafiq@apps.ipb.ac.id  
Jakarta, Indonesia

## Summary

Third-semester Computer Science student at IPB University with hands-on experience in programming using Python, C, C++, and JavaScript. Possesses foundational skills in data processing, algorithmic thinking, and computational problem-solving. Deeply interested in artificial intelligence and machine learning, with a focus on leveraging data to build intelligent systems that solve real-world problems. A collaborative team player who is eager to apply academic knowledge to practical projects, gain industry experience, and contribute to technological innovations.

## Experience

AI Engineer Cohort Feb 2026 - Jul 2026  
Coding Camp powered by DBS Foundation

- Engineered and optimized Machine Learning and Deep Learning models using Python, TensorFlow, and PyTorch, achieving 90%+ accuracy and faster inference speed via hyperparameter tuning.
- Collaborated in a cross-functional team of 6 (with Full-Stack Developers and Data Scientists) to build a CV Classification Capstone Project, effectively bridging technical disciplines to deliver an end-to-end AI solution under tight deadlines.

Staff, Event Division May 2026 - Present  
Agriinformatics 2026

- Demonstrated strong project management and strategic planning, efficiently balancing operational budgets, timelines, and program documentation.
- Fostered cross-functional collaboration and communication, aligning diverse committee teams to maintain operational synergy and clear execution goals.
- Applied real-time problem-solving and adaptability, managing live event dynamics under pressure to ensure flawless program delivery.

## Education

IPB University | Bogor, Indonesia 2025 - 2029  
Bachelor of Computer Science | Expected Graduation: 2029

- Current GPA: 3.87
- Relevant Coursework: Algorithms & Programming (C), Object-Oriented Programming (OOP), Database Systems, Statistics & Data Analysis, Linear Algebra for Computation, Discrete Structures, Computational Thinking.

## Skills

- Machine Learning
- Artificial Intelligence (AI)
- C & C++ (Programming Language)
- Python (Programming Language)
- JavaScript Fundamentals
- Project & Time Management
- Cross-Functional Collaboration & Teamwork
- Agile Problem-Solving & Adaptability
